HON. MITCHELL IS ELECTED IN MEDICINE HAT

Minister of Public Works Has
A Majority Over
Opponent

DECLARATION WILL
BE HE'D ON FRIDAY

H. W. McKeeney and His Bol-
itor, M. W. Eager, Explain
Situation in Clearwater

It now transpires that the provincial election returns were not complete yesterday morning, and any means. There was one very important omission. Just as everybody was settling down to the belief that seventeen Conservatives had been definitely elected, and that one cabinet minister had been defeated, and that the government would have a majority in the next house of commons, a telegram came a telegram last night, in response to a wire from the Bulletin, inquiring as to the latest result. From the returning officer at Medicine Hat, announcing that the Hon. C. R. Mitchell had been elected after all. This is now the telegram read:

"Final declaration at Medicine Hat not until Friday. Mitchell to date has eight majority. One vote to be dealt with."

WILLIAM P. DUNDON, "The returning officer," the telegram over the long distance wire. The vote still to be dealt with is a disputed ballot, the witnesses with regard to which were summoned to appear on May 1st, and that is the reason the official declaration is delayed until Friday. This vote will not make any material difference to the returning officer's declaration, which will be that Mr. Mitchell is elected.

Early Return Not Clear.
When it was announced on Monday night that Mayor Spencer was leading by a majority in the neighborhood of forty, the detachments were not very clear with regard to the disputed ballots, but the conclusion was drawn that they had been counted by the returning officer. This was not the case, however, and when the ballots were examined yesterday, it was found that the majority of them were for Mr. Mitchell.

The composition of the new house, according to the official declaration of the returning officers, is now as follows:
Liberals.....13
Conservatives.....15
Deferred.....2
If the deferred elections are Liberal, as is expected, there will be forty Liberals and sixteen Conservatives, or a government majority of twenty-four, which is exactly the estimate of the final result as announced by the Bulletin the morning after the election.

The Clearwater Contest.
With reference to the post-election statements of the two defeated Conservatives, the Clearwater constituency, Mr. A. Williamson Taylor and Joseph A. Clarke, an announcement was made last night by W. M. Eager, agent for H. W. McKeeney, who was declared elected, in which he stated that the election, so far as Mr. McKeeney was concerned, was run absolutely according to law, without interfering with any official or any person connected with the election. Mr. Eager added that both Mr. Taylor and Mr. Clarke threatened criminal prosecution, and used abusive language on the occasion of election day, and that they were ignored by Mr. McKeeney and his supporters.

It now appears that there were eight protested ballots in all, these

Elected in Medicine Hat.

HON. C. R. MITCHELL—Who now has lead of 8 in Medicine Hat. He will be declared elected on Friday.

WILL STREET CARS RUN ACROSS HIGH LEVEL BY JULY 1?

Work Being Rushed Ahead and
Final Span is Now Nearing
North Side

Work on the high level bridge is progressing at both ends. At the south end the contractors are busy laying the concrete floor of the traffic deck. This concrete floor has now reached about a quarter of the way across the bridge.
At the north end of the bridge the shifted concrete pedestals have been replaced and the erection of steel has begun again. It should only be a matter of a few weeks before the end of steel will reach the north shore and from bank to bank the rails of the C.P.R. will stretch across the valley on the high level.
The city is preparing for the laying of the street railway tracks on the approaches leading to the bridge. South side where they are looking forward to the grand second annual amalgamation celebration on July 1st. It is hoped that by that date the street car will be running across the high level route.

500 LINE PREPARES FOR BIG BUSINESS IN COMING SEASON

Will Spend Nearly Four Millions
in Purchase of New Rolling
Stock

By Bulletin's Leased Wire.
Montreal, April 28.—At a cost of \$3,712,455, the Soo line, in preparation for an expected increase of traffic and a greater demand for rolling stock in 1913, will add 7295 cars to its equipment, and with some of the new cars already arriving and the pressure on manufacturers for prompt delivery of contracts, the company will have the full complement of the new equipment in use well in advance of the maturity of the grain crop that is starting so favorably.
General Manager George H. Hunt, today gave out figures showing that the equipment order of the road for 1912 will mean: Twenty-five locomotives, fifteen hundred forty-ton cars, two hundred forty-ton flat cars, three hundred fifty-ton box cars, twenty-eight wheel steel cars, fifty coaches, sleeping cars, dining cars, baggage cars, observation cars or other cars for passenger service.

AUSTRIA AS YET HAS TAKEN NO ACTION

Now Engaged, it is Said, in Issuing
a Manifesto to Powers
Explaining Position

POWERS NOT PREPARED TO
TAKE WARLIKE MEASURES

Considered That Administration
of Albania by Essad Pasha
is Not Impossible

By Bulletin's Leased Wire.
London, April 29.—Vienna dispatch to the Daily Telegraph says that the Austrian Ministry of Affairs is understood that Austria is Monday night and demanded the immediate and unconditional evacuation of Scutari.
The king replied that he would never surrender Scutari.
The Austrian government, according to the same dispatch, is now engaged in issuing a manifesto to the powers, explaining its position and aims with regard to Alban affairs.

At a late hour tonight the British foreign office had no news of Austria's decisive action against Montenegro. It is understood that Austria at the ambassadorial conference in London, these initials are endeavor to induce Italy to join her in military action.

The meetings of the ambassadors in London have shown almost conclusively that a majority of the powers are not prepared to adopt warlike measures against Montenegro. It is then practically certain that Austria, in a few days, whether Italy consents or not, Austria will dispatch an ultimatum to Scutari, demanding the immediate evacuation of Scutari.

Not unlike word of Essad Pasha's dispatch in Albania has come through Kemal Bey, head of the provisional Albanian movement, who arrived in London to enlist British support. He and other Albanians do not regard Essad Pasha's coup very seriously, but the opinion seems to be growing among diplomats here that the administration under Essad Pasha in Albania might not be such an impossible situation of a difficult problem.

It is considered that Essad Pasha as an influential Albanian with a strong following and the prestige of his gallant defense of Scutari, might be more acceptable to the Albanians than a foreign prince and that it allowed to retain his self-chosen post he might be induced to make territorial concessions which would compromise Montenegro for the loss of Scutari and satisfy European claims.

MOISTURE HELPS THE SOUTH.

75 per cent. of Spring Wheat Above
Ground, and Farmers Optimistic.

Leithridge, April 29.—With seventy-five per cent. of the spring wheat above the ground, the general opinion is that the grain crop will be a good one. The precipitation will insure quick germination and rapid growth. Farmers are very optimistic although very little flax and oats have been sown.
The Canadian district very little flax and oats have been sown. The record of the first oats above ground.

the calendar year 1912, and the expectation of the material increase in 1913, and will be strengthened by an unusually favorable spring crop outlook, the appropriate of the new equipment has been liberal.

Funeral Procession of Detective Bailey, R.N.W.M.P., on Jasper Yesterday Afternoon

The funeral of the late Detective Bailey, R.N.W.M.P., killed at Grass Lake while in discharge of his duty last Wednesday, by Oscar Fothergill, was one of the most imposing yet seen in Edmonton. Thousands lined the streets to watch the procession pass by.
In the forefront of the conveying is the 191st Edmonton Fusiliers band, before whom marched the firing party of the R.N.W.M.P. Then came the carriage piled high with floral tributes, and following, the urn, drawn by two more white horses, behind which was led the mounted officers' horse. Next were the comrades of the R.N.W.M.P., the police officers, city police, the 19th regiment, and the 19th Mounted Rifles, service men and students.
The procession started from the barracks on Grieson street, thence along Jasper to Third, and down to All Saints, where service was held by Canon Webb. Afterwards the procession reformed and proceeded to Edmonton cemetery, where the final service included the firing of a volley and the bugle call.

First of May Will Come Quietly In Edmonton

City is Not Threatened With Labor Trouble—Only Two Agreements Expire and Those Will Likely Be Arranged
Without Friction

The first of May—that period of the year in labor circles throughout the world, when there are strikes, and rumors of strikes, and general unrest amongst the toilers—promises to pass off very quietly in Edmonton.
Only two agreements expire, the unions concerned being the electricians and masons, and the bricklayers. No trouble is expected or desired by either the employers or the employed. J. H. Miller, president of the Builders' Exchange, spoke last night of the very amicable relations with labor matters had been maintained in Edmonton recently, and expressed the hope and gave it as his belief that they would still continue to do so.

A. Parnis, secretary of the Trades and Labor Council, as representing the labor men, also said the unions were not in a pugnacious mood, and were not looking for any trouble, and added that he thought all pending matters would be satisfactorily adjusted.
The agreement between the Builders' Exchange and the bricklayers, which is just expiring, provided for a minimum wage scale of seventy cents per hour. A. E. Wetmore, secretary of the exchange, stated last night, however, that the bricklayers were paid last season all the way from 70 cents to 84 cents, with an average of about 80 cents. Many of them, he says, are being paid now at the rate of 75 cents per hour, although not all of them are working.

The secretary of the Bricklayers' Union would not make a statement for publication last night, beyond stating that negotiations for a new scale were under way.
It was understood that the electricians also intend to negotiate for a new agreement, the old agreement having been concluded some time ago.
Mr. Wetmore said last night that, taken collectively, the wages paid in the building trades in Edmonton are the highest in Canada. He added that, in view of the monetary stringency, it was too much to expect that the building permits would expand to a magnificent total of fourteen millions, reached last year, but there would be a very large building season in Edmonton this year, notwithstanding.

EVERY COUNCIL MEMBER ELECTED

With the return of the Hon. C. R. Mitchell in Medicine Hat, all the seven cabinet ministers have now been endorsed by the electorate. They are the Hon. A. L. Sifton, the Hon. C. W. Cross, the Hon. J. R. Boyle, the Hon. A. D. McLean, the Hon. C. R. Mitchell, the Hon. Duncan Marshall and the Hon. Charles Stewart.

There is a vacancy in the cabinet, caused by the death of the Hon. Mackenzie Bowden, but it is not expected that it will be filled until after the return of Premier Sifton from England.

Aldermen Refuse Vote of \$250,000 for Filters; Score Street Railway

Majority Desire to Wait Until Entire Water Problem is Settled
Before Bestirring Present Supply—Order More and Faster Cars
—Many Questions Up At Last Night's Council Meeting—

WHAT THE COUNCIL HAD LAST NIGHT

Asked the city commissioners to have their opinion as to whether it was worth the street railway, and instructed them to better the service.

Refused to vote \$250,000 for filters until after the council had decided as to where the city should get its water supply from.

Heard Alderman Calder renew his protest of motion that a plebiscite be taken on a gas supply.

Decided to hasten the inspection of isolation plants, which have been before the council for some four weeks.

Criticized the engineers' department for the work done in the construction of the South Side Inland.

Heard Alderman Walsh criticize the commissioners for not having the pipe line to connect the North and South Side water systems installed by this time.

Instructed the city solicitor to prepare by-laws requiring owners to prevent dogs to keep their yards clean, and to prevent dumping of refuse over the river banks.

Heard a lengthy report from the commissioners and the mayor regarding the passing of the bill to amend the city law in relation to the return of the city of Mayor Short.

Instructed the city solicitor to prepare by-laws requiring owners to prevent dogs to keep their yards clean, and to prevent dumping of refuse over the river banks.

WEST INDIES AGREEMENT PASSES HOUSE

Opposition Urge That All Ships
Which Receive Subsidies
Shall Fly Direct

DISCUSSION ON OTHER
GOVERNMENT MEASURES

Division of Money For Agriculture Urged to be Made on
Population Basis

By Bulletin's Leased Wire.
Ottawa, April 28.—The bill ratifying the trade agreement between Canada and the West Indies, which was put through the earlier stages some time ago, was given a third reading in the House tonight.
The opposition proposed a couple of amendments early, which were debated for several hours. F. B. Carroll, Carleton, proposed an amendment, declaring that all steamships receiving a subsidy in connection with the working out of this agreement should fly direct between Canadian ports and the West Indies.

Hon. George H. Parley, acting minister of trade and commerce, who was in charge of the bill, and Premier Borden advised the house that this was the object aimed at, but they objected to it, because it would mean that because it would change the form of the legislation in which the West Indian islands concerned had assented. A division was challenged on the amendment, which was rejected by a vote of 19 to 23, a government majority of 38. The motion for a third reading was then adopted.

Before the division, an amendment moved by Hon. William Pausley was declared lost. It favored the placing upon the statute books of a standing offer that whenever the West Indies increase their preference on Canadian goods to fifty per cent, then all goods in schedule B of the agreement shall be admitted into Canada duty free.

Opposition Amendments.
When the third reading of the bill, Martin Burrell's bill to aid agriculture was moved, Hon. Frank Oliver, secretary of Premier Sifton from England.

ALDERMEN REFUSE VOTE OF \$250,000 FOR FILTERS; SCORE STREET RAILWAY

(Continued From Page One)

tion plan; the barbers' early closing by-law; the paving of First street and the enforcement of the city charter of the building by-law, are only a few of many matters that have been discussed at the regular meeting last night in the municipal office.

Filtering Plant.

Many criticisms were hurled at the \$250,000 plan for the filtration of the water supply, which was recommended by the committee on the water supply.

The committee's report stated that the body had gone into the matter of providing sufficient additions to the filtration plant. They are submitting specifications and have called on tenders for filter units and a clear water basin. The sum of \$250,000 would be divided as follows:

- (a) A ten-million-gallon capacity sedimentation basin.
- (b) Filter units of a capacity of ten or twelve million gallons.
- (c) Clear water basin with a capacity of two million gallons.

Together with all the necessary buildings connected therewith.

Would Borrow \$250,000.

The report continued: "From what information we can get, the cost of filter units runs from \$14,000 to \$16,000 per million gallons.

In connection with the sedimentation basin, new buildings, would require, approximately, the amount asked, for the same purpose, therefore request that the council pass a by-law for this amount, to be borrowed from the city.

In answer to the question as to the current season and only to be drawn on as required, the council was told to be held until next year.

Moves That By-Law be Brought Down.

Alderman May moved that the city solicitor bring down the by-law necessary to spend money and that the committee be instructed to have the plan in operation before the spring.

"We have been drinking mud every spring, long enough to be said," Alderman Douglas remarked.

"Are we spending \$250,000 down on the present site," Alderman Walsh asked to know. "Hadn't we better wait until we drink water before we come to put the water intake?"

"It is high time the council did something," declared Alderman Livingston.

Alderman Smith thought that the council should decide on the permanent plan for the city's water supply first, before any more money was spent at the present plan.

"It is all right to spend money to keep things going," he said, "but this looks like a waste of money for a vote for this expenditure. I would like to see the whole matter settled."

"Wants to Settle London First," Mr. Smith then moved that no money be voted for filtering until the special meeting of the council when the water supply committee report is to be discussed. Alderman Walsh opposed the amendment.

Alderman Livingston objected. "In spite of the fact that two or three aldermen have made up their minds as to what to do for a water supply," said he, "for one, I intend to stick by the report of the committee. We are engaged to study this whole matter, as far as we can, and to report to the water works where it is."

"I am inclined to think that men who have this kind of opinion are studying the water supply question more than the matter that is before the council."

"At this point Alderman Douglas decided he did not want to vote any money for filters. The committee on the water supply, from preceding Alderman Smith's motion, Alderman Livingston at once took his place as recorder.

This is how the aldermen voted for the \$250,000 plan for the water supply.

For—Lundie, May, Livingston—3. Against—Smith, Walsh, Douglas, Livingston, Caidor—5.

The next order at the commission was made by Alderman Walsh, in connection with the pipe line to be laid across the river, the committee reported that "this pipe line will be placed across on some as all the material, which was ordered last week, arrives, but owing to delays at the works and in transportation, there is still a half of the material left."

"A very poor excuse," quoth Alderman Walsh. "The pipe line has had a year in which to get the work done. I say this is a very flimsy answer to my question."

Street Railway System.

The street railway provided another topic of discussion. Alderman Smith had the system on his mind. Last night he said just what he thought about it.

"We have a street railway system here that is the worst of all systems of the city," he declared. "We have had various recommendations from the commission and the board of aldermen as to ways in which to make it pay and it has been a failure. First there was a recommendation from the municipality that a full five-cent fare be charged. Then I saw a letter from one of the commissioners in a paper that he had been advised a straight five-cent fare. I do not think that is the proper solution."

Why Railway Not Paying.

There are two or three things in which I would like to see the commissioners report. In the first place, what do the commissioners think is wrong?"

The Alderman Smith made the following resolution, which was seconded by Alderman Caidor and carried.

The acute traffic conditions in the city, and the fact that the street railway is not paying, are the reasons for the refusal to vote for the \$250,000 plan for the filtration of the water supply.

"If we are short of power, then let us get more power. I do not believe in raising taxes. I believe in getting more power. I do not believe in raising taxes. I believe in getting more power."

South Side Service Deplored.

Alderman Caidor declared that the South Side service was "deplorable."

He replied to the commissioners in answer to questions put by Alderman Smith that he was in regard to the matter of providing sufficient additions to the filtration plant.

The committee's report stated that the body had gone into the matter of providing sufficient additions to the filtration plant. They are submitting specifications and have called on tenders for filter units and a clear water basin. The sum of \$250,000 would be divided as follows:

- (a) A ten-million-gallon capacity sedimentation basin.
- (b) Filter units of a capacity of ten or twelve million gallons.
- (c) Clear water basin with a capacity of two million gallons.

"We have had various recommendations from the commission and the board of aldermen as to ways in which to make it pay and it has been a failure. First there was a recommendation from the municipality that a full five-cent fare be charged. Then I saw a letter from one of the commissioners in a paper that he had been advised a straight five-cent fare. I do not think that is the proper solution."

Why Railway Not Paying.

There are two or three things in which I would like to see the commissioners report. In the first place, what do the commissioners think is wrong?"

THE RING
LACROSSEDundee vs. Kilbane a Draw—
Referee's Decision Unpopular

Featherweight Champion Had Better of Practically Every Round, But Dundee Finished Strong—But Went Full Twenty Rounds
Kilbane's First Defense of Title Since He Won From Alibi

By Bulletin Special Wire.
Los Angeles, April 29.—Johnny Dundee was given a draw at the end of his twenty-round fight tonight with Kilbane, the featherweight champion. Kilbane apparently outpointed the challenger every round, but the referee's decision was unpopular, and Referee Egan gave him a draw. The decision was unpopular and the crowd voiced its disapproval. Dundee defended tonight his title for the first time when he won from Alibi on February 22, 1912. Betting was 2 to 1, with comparative little of the Dundee money in the ring. Dundee was under the required 122 Referee Egan started the boys at 7:30.

Round One.—They rushed into a clinch and were pushed aside by the ring. Kilbane joined Dundee with left and right to the chin and Dundee pointed a hard right to the face as they separated. Kilbane avoided a jab to the head with his left hand, right to the round ended. Kilbane's right arm was raised.

Round Two.—Kilbane rushed the Italian to the ropes, planting a hard right to the stomach. He jabbed Dundee's face with his right hand. Kilbane just two hard rights to the face as the round ended. Kilbane's right arm was raised.

Dundee's First Legging Act.
Round Three.—Kilbane missed a legging in the air, but Kilbane was three feet away from him. Kilbane rushed the Italian to the ropes, planting a hard right to the stomach. He jabbed Dundee's face with his right hand. Kilbane just two hard rights to the face as the round ended. Kilbane's right arm was raised.

Round Four.—Kilbane missed a legging in the air, but Kilbane was three feet away from him. Kilbane rushed the Italian to the ropes, planting a hard right to the stomach. He jabbed Dundee's face with his right hand. Kilbane just two hard rights to the face as the round ended. Kilbane's right arm was raised.

Round Five.—Kilbane missed a legging in the air, but Kilbane was three feet away from him. Kilbane rushed the Italian to the ropes, planting a hard right to the stomach. He jabbed Dundee's face with his right hand. Kilbane just two hard rights to the face as the round ended. Kilbane's right arm was raised.

Round Six.—Kilbane missed a legging in the air, but Kilbane was three feet away from him. Kilbane rushed the Italian to the ropes, planting a hard right to the stomach. He jabbed Dundee's face with his right hand. Kilbane just two hard rights to the face as the round ended. Kilbane's right arm was raised.

Round Seven.—Kilbane missed a legging in the air, but Kilbane was three feet away from him. Kilbane rushed the Italian to the ropes, planting a hard right to the stomach. He jabbed Dundee's face with his right hand. Kilbane just two hard rights to the face as the round ended. Kilbane's right arm was raised.

Round Eight.—Kilbane missed a legging in the air, but Kilbane was three feet away from him. Kilbane rushed the Italian to the ropes, planting a hard right to the stomach. He jabbed Dundee's face with his right hand. Kilbane just two hard rights to the face as the round ended. Kilbane's right arm was raised.

Round Nine.—Kilbane missed a legging in the air, but Kilbane was three feet away from him. Kilbane rushed the Italian to the ropes, planting a hard right to the stomach. He jabbed Dundee's face with his right hand. Kilbane just two hard rights to the face as the round ended. Kilbane's right arm was raised.

Round Ten.—Kilbane missed a legging in the air, but Kilbane was three feet away from him. Kilbane rushed the Italian to the ropes, planting a hard right to the stomach. He jabbed Dundee's face with his right hand. Kilbane just two hard rights to the face as the round ended. Kilbane's right arm was raised.

Round Eleven.—Kilbane missed a legging in the air, but Kilbane was three feet away from him. Kilbane rushed the Italian to the ropes, planting a hard right to the stomach. He jabbed Dundee's face with his right hand. Kilbane just two hard rights to the face as the round ended. Kilbane's right arm was raised.

Calgary Fans Are Fickle;
Griffiths is Now Favorite

Morris Also Game For Thursday Night's Bout With Feiky

Special to the Bulletin.
Calgary, April 29.—Billy Griffiths, of Cincinnati, is a hot favorite tonight over Mickey Morris for their 12-round bout here Thursday night. It seems to be because of his showing here in his previous fights. Griffiths is a powerful hitter and a fast runner. He is expected to be a valuable addition to the team.
